

IQ-1200

Two-tier IQ Series® X-style Keyboard Stand with Patented Memory Lock System, Five Height Settings, Stabilizing End Caps, and Single-braced Tubing - 100/50 lbs. Capacity

Trusted Stability with a Small Footprint

The IQ-1200 is the most stable single-braced X-style stand available, designed to hold keyboards, synthesizers, and workstations up to 100 lbs. (first tier), while maintaining a compact, gig-friendly format. With thick, single-braced tubing, heavy-duty bolting, a generous upper keyboard shelf, and a host of Ultimate Support innovations the IQ-1200 brings an element of luxury to the single-braced keyboard stand, and is equally at home onstage, at jams, and in the studio.

Patented Memory Lock System

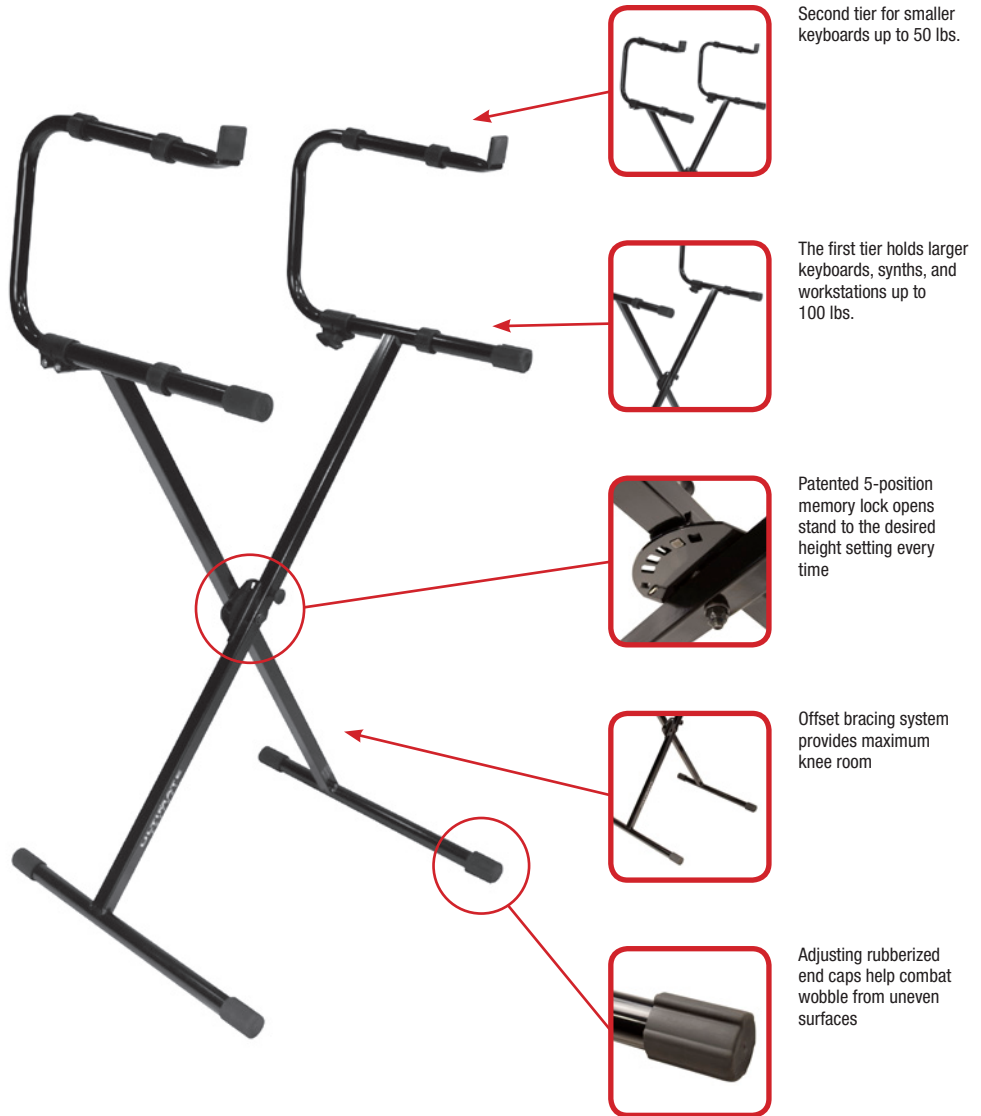

Equipped with the IQ Series patented Memory Lock System, the IQ-1200 offers a set-it-once solution that saves gigging and on-the-go keyboardists time and energy. After initially choosing a preferred height position, the Memory Lock opens the stand to the desired height every time. Keyboardists need only to lift and place their instruments once.

Stabilizing End Caps

The IQ-1200's integrated stabilizing system accounts for potentially uneven surfaces at gigs or jam locations and effectively combats potentially instrument-threatening rocks and wobbles. Located on the upper and lower tubes, two rubberized end caps easily rotate, revealing incremental thicknesses to correct the problem. In addition, thick rubber sleeves secure the keyboard on the upper tubes, while keeping the IQ-1200 firmly in place.

Second Tier for Twice the Playing

For keyboard players who like to perform with more than one keyboard, the IQ-1200 features two tiers! The second tier holds up to 50 lbs., which is perfect for most 61-note keyboards, synths, and workstations.

IQ-1200 SPECS

- Part Name: IQ-1200
- Part Number 17477
- Weight Capacity: 100/50 lbs. (45/23 kg)
- Height Positions: Five
- Height (1st Tier): 26.5" – 36" (673mm – 914mm)
- Height (2nd Tier): 11.5" (291mm)
- Depth (both): 13.5" (343mm)
- Width: 18.5" – 33" (469mm – 838mm)
- Weight: 14.85 lbs. (6.7 kg)

IQ SERIES®

The IQ Series redefines the X-style keyboard stand, bringing a new level of stability and innovation to the lightweight, gigging-minded design. Offering a range of height settings for sitting-to-standing playing comfort, the IQ-1000, IQ-1200, IQ-2000, IQ-2200 and IQ-3000 all feature Ultimate Support's patented Memory Lock system and unique stabilizing end caps, giving keyboardists timesaving onstage luxuries along with peace of mind. IQ Series stands hold true to Ultimate Support's twofold commitment – providing uncompromising instrument stability while remaining at the forefront of musician-centric, innovative design – and are ideal for supporting everything from lightweight synthesizers and MIDI controllers to the heaviest of professional keyboard workstations.
